****Data as of 31 March 2026**

10. Since 1 July 2025, on average, about **95 per cent** of applicants receive a successful skills assessment outcome across all Trades Recognition Australia Programs.

11. TRA provides data each month to DEWR's Assessing Authority Policy and Assurance team (who oversee all 39 Assessing Authorities). This reporting includes successful and unsuccessful skills assessment outcomes.

s 22(1)(a)(ii)

13. Applicant preparedness for assessment is a key influencer of assessment timeframes. Timeframes differ based on which program pathway the applicant is eligible for. Eligibility is based on the visa class being applied for, qualification relevancy and length of work experience in the nominated occupation. Applicant preparedness for assessment is a key influencer of assessment timeframes. There are three assessment types with some programs requiring a combination of more than one type of assessment. These assessment types are:

- documentary evidence-based assessment which can take between 20 and 120 days.
- technical and practical assessment activity delivered offshore which can take between 9 and 15 weeks.
- practical assessment in an Australian workplace which can take between 100 and 120 days.
