

International education and managed growth arrangements for 2026 – VET provider allocations for new overseas student commencements

This document contains indicative 2026 New Overseas Student Commencement (NOSC) allocations for Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) registered vocational education and training (VET) providers delivering nationally recognised training qualifications.

Indicative allocations will continue to be used to inform the prioritisation of processing for offshore student visa applications. Further information on the Australian Government's National Planning Level (NPL) and managed growth arrangements can be found on the [Department of Education's website](#).

For 2026, managed growth arrangements for VET providers will ensure:

- No active provider receives a lower indicative allocation than in 2025
- Large providers receive modest growth (5%) on 2025 allocations
- Better support for small providers, with access to pooled allocations for fair and flexible prioritisation (a 'small provider pool')
- TAFE providers retain continuous unlimited priority visa processing, with indicative allocations unchanged from 2025.

The 80% prioritisation threshold for individual providers will remain in place. The prioritisation threshold refers to 80% of an individual provider's indicative allocation of NOSC for a given calendar year. Providers will continue to receive Priority 1 processing for offshore student visa applications until they reach their prioritisation threshold.

Large and small provider definition

For 2026, large providers are those providers with allocations of more than 100 NOSC in 2025, and small providers are those with 2025 allocations up to and including 100 NOSC.

Small provider pool

To ensure fair and flexible prioritisation for offshore student visa processing, the arrangements for 2026 will include the pooling of allocations for all small VET providers. The small provider pool will support small VET providers by increasing their access to high-priority visa processing, while improving their overall utilisation of places. More information about the operation of the small provider pool can be found on the [Department of Employment and Workplace Relations website](#).

Dual sector providers

Dual-sector providers will have a single 2026 indicative allocation reflecting their combined higher education and VET indicative allocations. These providers have flexibility to manage their allocation as a whole. Higher education indicative allocations are available on the [Department of Education's website](#).

NOTE: Dual sector providers will only be included in the small provider pool if their combined higher education and VET indicative allocations for 2026 are not more than 100 NOSC.

2026 allocations for VET providers

NOTE: the following list of 2026 allocations for VET providers will be updated on a regular basis, to reflect changes to market entry and exit. Last updated 03 November 2025.

NOTE: TAFE providers retain continuous unlimited priority visa processing, with indicative allocations unchanged from 2025.
