

Indicative allocations for VET new overseas student commencements 2026

This document contains indicative 2026 New Overseas Student Commencement (NOSC) allocations for Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) registered Vocational Education and Training (VET) providers delivering nationally recognised training qualifications.

In accordance with recent decisions of government, indicative allocations will continue to be used to inform the prioritisation of processing for offshore student visa applications. A successor to Ministerial Direction 111 will shortly be made to reflect this. Further information on the National Planning Level (NPL), the definition of a NOSC, and categories of students exempt from the NPL that will receive priority processing can be found on the [Department of Education's website](#).

For 2026, the methodology for VET provider indicative allocations has the following features:

- No active provider receives a lower indicative allocation than in 2025
- Large providers receive modest growth (5%) on 2025 allocations
- A 'NOSC pool' will provide growth for small providers (further details below)
- TAFE providers retain continuous unlimited priority visa processing, with indicative allocations unchanged from 2025
- A small reserve for new market entrants

Large and small provider definition

For purposes of the 2026 methodology, large providers are those providers with allocations of more than 100 NOSC in 2025, and small providers are those with 2025 allocations up to and including 100 NOSC.

Small provider pool

Given significant under-utilisation of allocations by small providers in 2025, a more flexible – approach is being introduced in 2026 to increase their access to Priority 1 (High) processing and improve their NOSC utilisation as a cohort.

Providers with 2025 allocations of up to and including 100 NOSC will be placed in the pool, with their allocations combined. Providers will be able to draw down on the pool, accessing Priority 1

(High) processing until they reach 80 NOSC – in line with the 80% prioritisation threshold that applies to all providers.

In this case, 100 NOSC becomes a small provider's de facto allocation and 80 its individual prioritisation threshold (IPT).

Any provider in the pool that uses 80 NOSC will move to Priority 2 (Standard) processing. This will ensure that a small number of providers cannot use all the NOSC in the pool so that all providers have equitable access to Priority 1 processing.

If at any point providers in the small provider pool collectively reach 80% of the total NOSC available in the pool, all remaining providers in the pool will move simultaneously to Priority 2 (Standard) processing.

Dual sector providers

Dual-sector providers will have a combined 2026 indicative allocation reflecting their combined higher education and VET indicative allocations. Those providers have flexibility to manage their allocation as a whole. Higher Education indicative allocations are available on the [Department of Education's website](#).

Indicative Allocations for VET providers 2026

(Last updated 11 August 2025)

TAFE providers

CRICOS Code	TAFE Providers	2026 Allocation
00001K	Canberra Institute of Technology	149
