

Labour Force Survey | Overall | October 2024 - September 2025

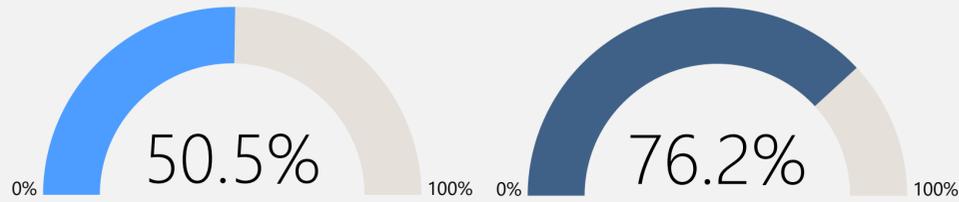

The Labour Force Survey provides information on the employment and education status of participants in three Workforce Australia employment programs – Workforce Australia Online, Workforce Australia Services and Transition to Work. Participants who were in (caseload) or have exited (exits) any of the three programs in the reference period can receive the survey.

Workforce Australia Online

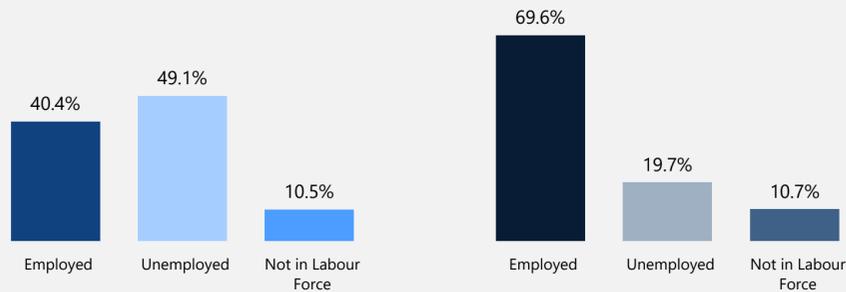

Caseload⁽¹⁾
Responses: 5,654

Exits⁽¹⁾
Responses: 4,827

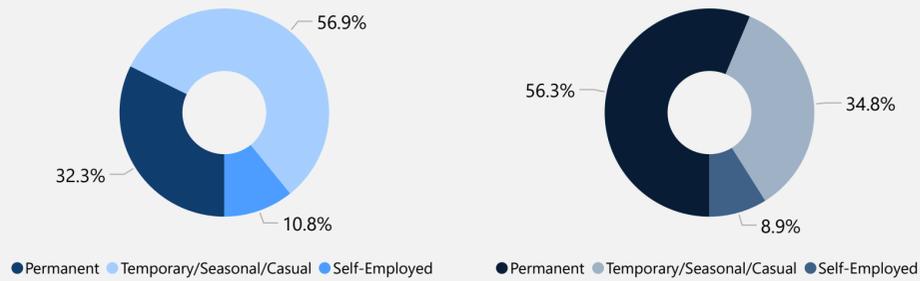

Positive Outcomes⁽²⁾

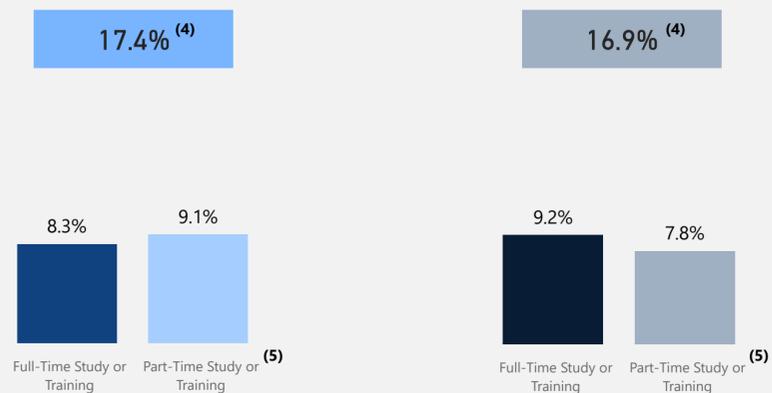

Labour Force Status

Employment Type⁽³⁾

Study or Training

Caseload⁽¹⁾
Responses: 2,183

Exits⁽¹⁾
Responses: 1,704

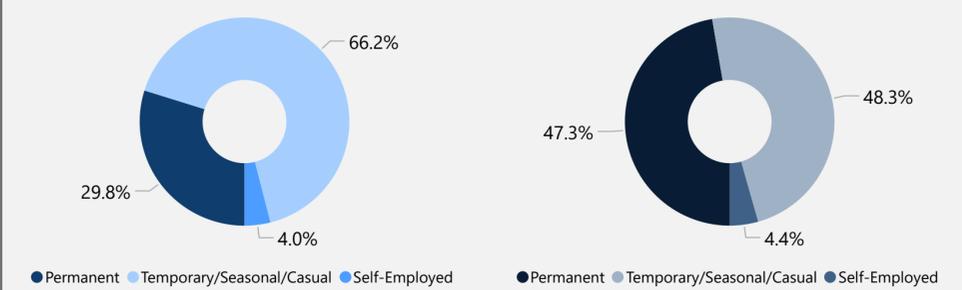

Positive Outcomes⁽²⁾

Labour Force Status

Employment Type⁽³⁾

Study or Training

Notes

(1) These results relate to outcomes for participants who were on the caseload at the end of any month or exited their Workforce Australia employment service program any time between 1 October 2024 and 30 September 2025.

(2) A positive outcome is achieved by a participant if they were in employment and/or study or training.

(3) Employment Type results refers to participants who were employed. For example, for the Workforce Australia Online Caseload, of those who were employed, 32.3% were in permanent employment.

(4) Study or Training headline results refer to the respective caseload or exits population. For example, 15.8% of Workforce Australia Services exits were in study or training.

(5) Study or Training type results refer to the respective caseload or exits population. For example, 15.8% of Workforce Australia Services exits were in study or training and 7.7% were in full-time study or training.
