

Transition to Work Consultation Paper – Additional Feedback – Gen Z

Employment

Question:

Are there any other meaningful measures that could be included in the Provider Performance Framework.

Response:

Additional measures could include:-

1. how many young people participate in vocational/career activities such as NWEF, work experience, PaTH, skill sets, work tasters.
2. what types of opportunities is the Provider offering through their collaboration with industry and employers?
3. are opportunities and activities linked to their career goals and plans.
4. does the Provider have mechanisms in place within the local community with industry, training/education and additional supports that supports the progress of a young person into employment?

Question:

What issues, if any, do you see with making attendance at the first appointment subject to the income support payment suspension mechanism?

Response

The issue we would see is if it appears like the TtW provider is suspending income support as this is not intrinsic to the design of the service.
