

Scope & Caveats

This report presents data on requests and confirmations for Mutual Recognition and Automatic Mutual Recognition across each financial year from 1 July 2022 to 30 June 2025. The data is shown at an aggregate level and broken down by occupation and by state or territory.

Please note the following when interpreting the data:

Platform Limitations: The data reflects only requests communicated through the government-hosted platform used by state and territory regulators. If a regulator does not use this platform, those requests are not captured. The government relies on regulators for accurate data entry and cannot guarantee the completeness or accuracy of the information. These figures may not represent all requests under Mutual Recognition or Automatic Mutual Recognition.

Confirmed Status: A request classified as “confirmed” means it was granted unconditionally. Requests not marked as confirmed may have been:

- i. Partially confirmed
- ii. Confirmed with conditions
- iii. Rejected

The department does not have visibility of these outcomes.
